- ③ Volume Match up to 10%
- ④ Node Bonus 30 layers
- ⑤ Honour Pool: shared every quarter
- ⑥ M3 Points: free with every account

① First Match 100%

1 left + 1 right = 0.2 BNB, straight away

Same tree | You have 4 directs · holding the 0.2 package

100%

First Match rate

Paid the moment layer 1 matches. You qualify on opening, even with 0 directs.

0 directs needed

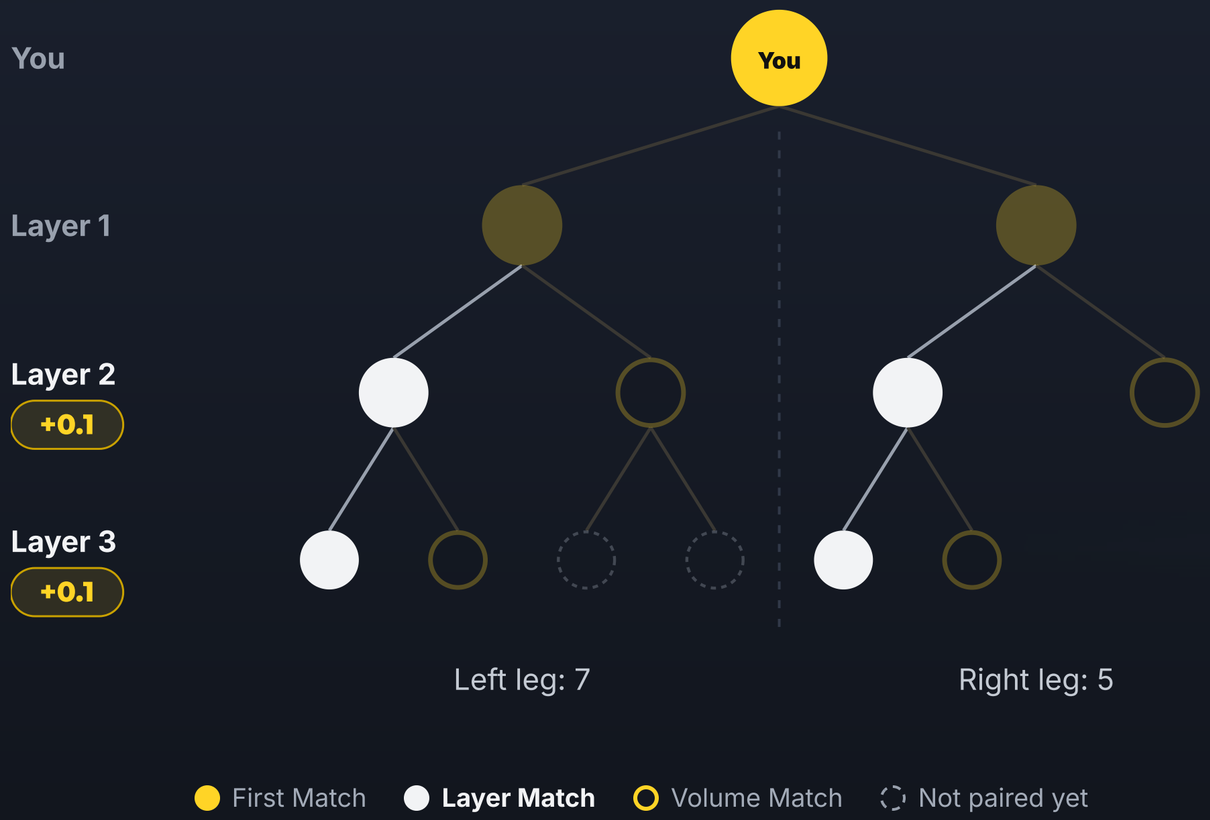

Once only

You get **0.2 BNB**

② Layer Match 50%

every layer with both sides filled pays 0.1 BNB

Same tree | You have 4 directs · holding the 0.2 package

50%

0.1 BNB per layer

After the First Match it keeps going down: 1 left + 1 right per layer, no depth limit.

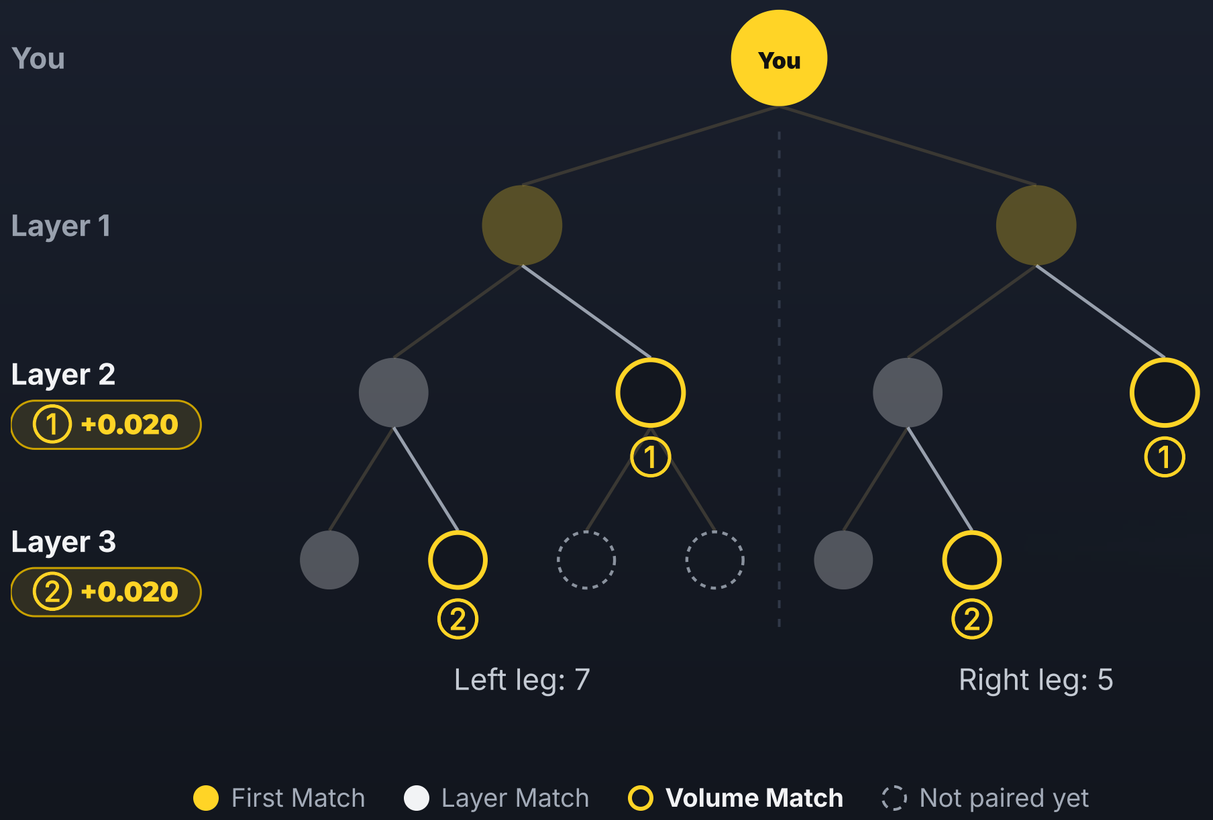

Layer 2 1 left + 1 right	**+0.1 BNB**
Layer 3 1 left + 1 right	**+0.1 BNB**
Layer 4 on Same, no limit	**+0.1 each**

Pairs formed with fewer than 2 directs are not paid, now or later.

④ Node Bonus 30 layers

0 directs	1 direct	2 or more
1 BNB	2 BNB	3 BNB

Based on the 0.2 package, with all 10,000 sitting within your 30 layers and the referral count met from the start. Node Bonus already paid is not retro-adjusted when your referral count rises, and the 0.2 package pays at most 0.3 BNB in any single day.

⑤ Honour Pool

5% of every payout, shared every quarter

5% pool

5% of every payout across the network goes into the pool. The more the network pays out, the bigger it gets.

Pay out 1 BNB → 0.05 BNB into the pool

Shares from Gold Wing up, more at every rank

Small print = rank-up threshold (lesser lines · active directs)

Gold Wing	Twin Wings	Silver Eagle	Gold Eagle	Sky Eagle	Eagle King	Legend
1	2	3	5	8	13	21
8 BNB · 3	20 BNB · 4	50 BNB · 5	120 BNB · 6	300 BNB · 8	800 BNB · 10	2,000 BNB · 12

Paid every quarter

At quarter end 70% of the pool is shared out; 30% carries over, so the pool never starts from zero.

Rank up early, earn more

Shares count daily: every day at a rank is a day of shares.

Titles are for life

Ranks never drop. Silver Feather, Gold Feather and Silver Wing earn the title first.

Two checks: lesser-lines volume + active directs; meet both to rank up (Silver Feather 1 direct; Gold Feather 1 BNB · 2; Silver Wing 3 BNB · 2). Each quarter, new lesser-lines volume must reach half your threshold to share at your rank; fall short and you share at the rank you reached, and any extra carries one quarter. At quarter end 70% of the pool is split by shares × days (30% plus remainders roll over); it counts toward Total earned, sits outside the daily cap, and is auto-paid at 12:00 (15% fee).

Find 4 Partners in 14 Days

One move. Everyone copies it.

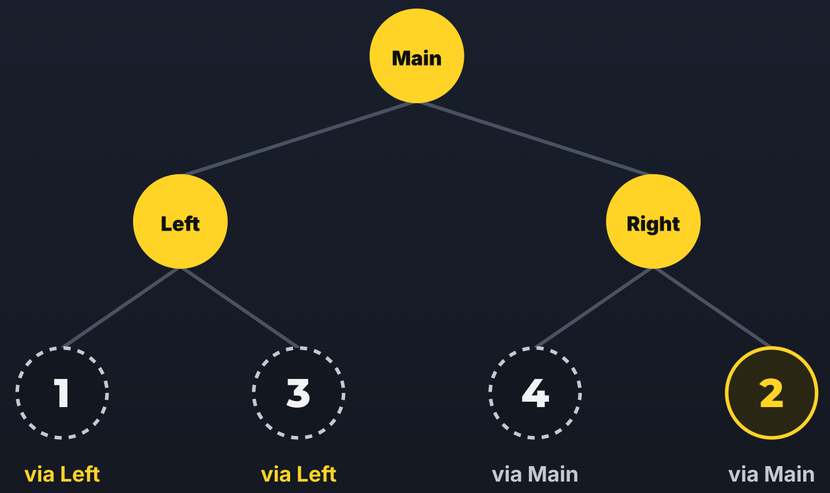

- Open 3 accounts with 1.8 BNB
- Find 4 partners in 14 days
- Help your 4 partners find their 4

Steps 1–2 open 3 accounts, find 4 partners in 14 days

Main, Left and Right, each with 0.2 + 0.4 = 0.6 — 1.8 BNB in all, plus 1,800 M3 Points. Week 1 bring 2, week 2 bring 2: 1 and 3 via Left, 2 and 4 via Main.

Place your 4 partners in this order

1 always goes bottom-left of Left · 2 goes on the other side: matching starts when both sides have someone

With each partner, your running total (BNB)

0	**Open your 3 accounts** Main account: First Match on both packages	0.60
1	**No. 1 · bottom-left of Left** One side only — wait for No. 2	0.60
2	**No. 2 · bottom-right of Right** Both sides filled: Layer + Volume Match	1.26
3	**No. 3 · bottom-right of Left** Left account: First + Layer Match	2.16
4	**No. 4 · bottom-left of Right** Right: First + Layer; Main: more Volume	3.24

Step 3 help your 4 partners find their 4 — layer by layer

Full 0.6, everyone opens 3 accounts and brings 4. In BNB, before the 15% fee; each account is capped at 0.9 a day; assumes everyone copies it — real teams are slower. With 4 directs the top rank is Twin Wings.

How far it is copied	Below you	Total received	× your 1.8 BNB	Rank	Honour Pool
Step 2: your 4 partners	4 people	3.24	× 1.8	Silver Wing	—
Step 3: each partner finds 4	20 people	≈ 6.1	× 3.4	Gold Wing	1 share
One more layer copies it	84 people	≈ 12.6	× 7	Twin Wings	2 shares
One more layer copies it	340 people	≈ 31	× 17	Twin Wings	2 shares

Bring about 2 people a week to the online class
You invite; the class explains it — lean on the team to close.

Starting at 0.2 copies the same way
Same multiples, a third of the amount; full 0.6 reaches Gold Wing at step 3.
